

June 22, 1944.

Mr. J. Gyulay, Jr.,  
Wallace & Tiernan Sales Corp.,  
426 Board of Trade Building,  
Kansas City, Mo.

Dear Mr. Gyulay:

The Newark office of your firm informs us that they will ship on July first one MSVCM Chlorinator on our order number POV 4193.

We are very desirous of placing this new chlorinator nearer the swimming pool. As you recall, at the east end of the pool there is a fairly wide deck, and this is where we would like to place the chlorinator if you think it feasible.

Can you tell us what sort of an enclosure, if any, should be built, or a platform, or whatever would be necessary to install the chlorinator in this location? We expect to notify your firm by telephone as soon as the new chlorinator is received so that you may send an engineer to supervise the installation, but if there is any preparation that can be done before it arrives we would like to have specifications.

I will appreciate hearing from you at your convenience.

Sincerely yours,

Director of Physical Education,  
Varsity Basketball Coach.
