Dear Sir:

We have yours of June 22nd and note that you are contemplating placing this new Chlorinator near the swimming pool. In that the Chlorinator may be exposed if placed in the position to which you refer, we would recommend that some sort of inclosure be constructed so that the equipment would not be tampered with by anyone who is not familiar with such units.

As to any preparation which you can have your men do. We would recommend a water supply line be made available near your contemplated new location. Also, some thought should be given to the waste line with reference to the Chlorinator.

As soon as the equipment arrives we will make arrangements to have one of our men available to supervise the installation.

Yours very truly,

WALLACE & TIERNAN SALES CORP.

  
J. GYULAY, JR.
