CLAFLIN, KANSAS

November 5th, 1939.

Dr. Forrest C. Allen,  
Lawrence, Kansas.

Dear Fog:

I have been waiting at home and at the telephone for your call or appearance but thought now I better write relative to the visit we talked about some time back. Ha. Ha.

Presented your letter to the principal of the school and showed him how busy a fellow you were going to be about that time and he too could see that it falls in a period when you are getting ready for your basketball season and that left only about a couple of dates open in the week of December ~~xxxx~~ 10th and that simmered down to about Tuesday Dec 12th or Wed Dec 13th. Now Dr. if that happens to be your busy time then we will just have to postpone it until next year and then try to get together for a banquet date and in the meantime I may be able to see you this following weekend to say hello. Best regards to you, Mrs and the family and if you can give me a reply I will forward it to the principal of the school here in order that he can go on with his plans. Thanking you and remaining as ever,

Your Friend
