Dear Chet:

It was a pleasure to hear from you, and we are looking forward to the time when you will be able to visit the University. I want to use you as chief lecturer in my First Aid class, and I know the students will be delighted. Let me know ahead of time when you are coming, because I want to be here. I have a few commencement addresses to make this spring, so will be out of town a few days.

With best wishes for your continued success, I am

Very sincerely yours,
