Dr. F. C. Allen
Lawrence Kans.

Dear Sir: I wish to congratulate you on your fine season and was sorry I couldn't come to Wichita to see you and the teams play.

As you remember I wrote you last spring about our son Bill Forsyth and told you I thought you were a good man to turn our boy over to.

Well I believe he is now in the proper attitude for you to do some good with him. He has failed to make his Sigma Chi house by a few points and he is about as low as he can get.

I wish you would call him in and see what you think he needs and then give it to him straight from the shoulder. I think he has brains enough to make his grades and also do his part in campus activities, but I think we are ~~not~~ at fault.
