

With best wishes
for a

Merry Christmas

and a

Happy New Year

Chester K Friedland

Best to your always
Chet Friedland

Dear Dr Allen,

Taking my basic training
to be a medical soldier, and
find your teachings to be
most helpfull. Treating
wounded soldiers although of
a more serious nature is similar
to treating the injured athlete
as they both require speed, efficiency
and quick recovery. I have "Bettles
Basketball" right at my side.
Will write a detailed letter about
our work soon. Hope

Your family have a swell
Christmas and New Year
son.
