Dear Dr. Allen:

Your autographed copy of "Better Basketball" received in fine shape, and I wish to take this opportunity to thank you for it.

As soon as I can complete arrangements I expect to start the correspondence course.

By the way I am a bit in doubt about those new fangled fan-shaped backboards. Would you suggest we install them this year or wait for another year? Are they going to be permanent? We will have no difficulty installing them, but the question is: would they meet with the approval of visiting teams whose schools have not as yet been able to go so modern?

Cordially,

E. S. Foltz
