

May 31, 1939.

Mr. Leigh Fischer,  
Attorney at Law,  
Southwest Public Service Co.,  
Amarillo, Texas.

My dear Leigh:

I am wondering if you would be kind enough to do a favor for me.

A few weeks ago I filled out an application blank for Miss Margaret Curd, who has her Master's degree in physical education at the University of Kansas. It was in connection with a position in the Amarillo Public Schools, and I presume it was from the superintendent's office. Miss Curd is a sister of Bob Curd, one of my former basketball players here at the University.

While Miss Curd was in the office I spoke to her about the position and she was not informed as to a position being open in the Amarillo school system. However, she is much interested, but not being an applicant she is curious to know how her name came to the attention of Superintendent Rogers.

We would like to see Miss Curd get this position, but you will understand that Miss Curd not having been an applicant is desirous of knowing more about the position. If you can use your legal training and tact to get this information without causing an administrative ripple in the superintendent's office, I would appreciate it. Please do not go to any exceptional trouble, but if there is someone in Amarillo boosting Miss Curd we would like to help the good work along. It is for this reason that we are desirous of having this information.

Thanking you, and with best wishes, I am

Sincerely yours,

Director of Physical Education,  
Varsity Basketball Coach.
