

July 28, 1939.

Professor Earl Foster,
Central Missouri State Teachers College,
Warrensburg, Missouri.

Dear Kibe and Jean:

Under separate cover I am sending you the small bottle of eye-wash, Alkalol, that I promised you. I am sure you will find it a fine product.

The eye-wash contains a small amount of camphor, and for that reason the bottle should be kept tightly closed. You might find it necessary to add a little camphor from time to time, but you being a chemist, Kibe, will know more about this than I.

With best wishes, I am

Very sincerely yours,

FCA:AH

Director of Physical Education and Recreation,
Varsity Basketball Coach.
