*that Adds to Your Pleasure, or Profits — or Both*

## Special Mountings for Swimming Pool Spring Boards

Our organization offers you specialized knowledge and wide experience in designing spring board mountings. This assures you efficient units, in perfect harmony with the layout and beauty of your pool, either indoor or outdoor.

Many of the finest estates—and public pool operators—in the West, entrust us with their spring board mounting requirements. Owners, architects and engineers are cordially invited to put their special problems up to our Advisory Service Department, without obligation.

## Cocoa Matting

To insure your getting the softest, thickest non-skid covering obtainable, we import our own cocoa matting.

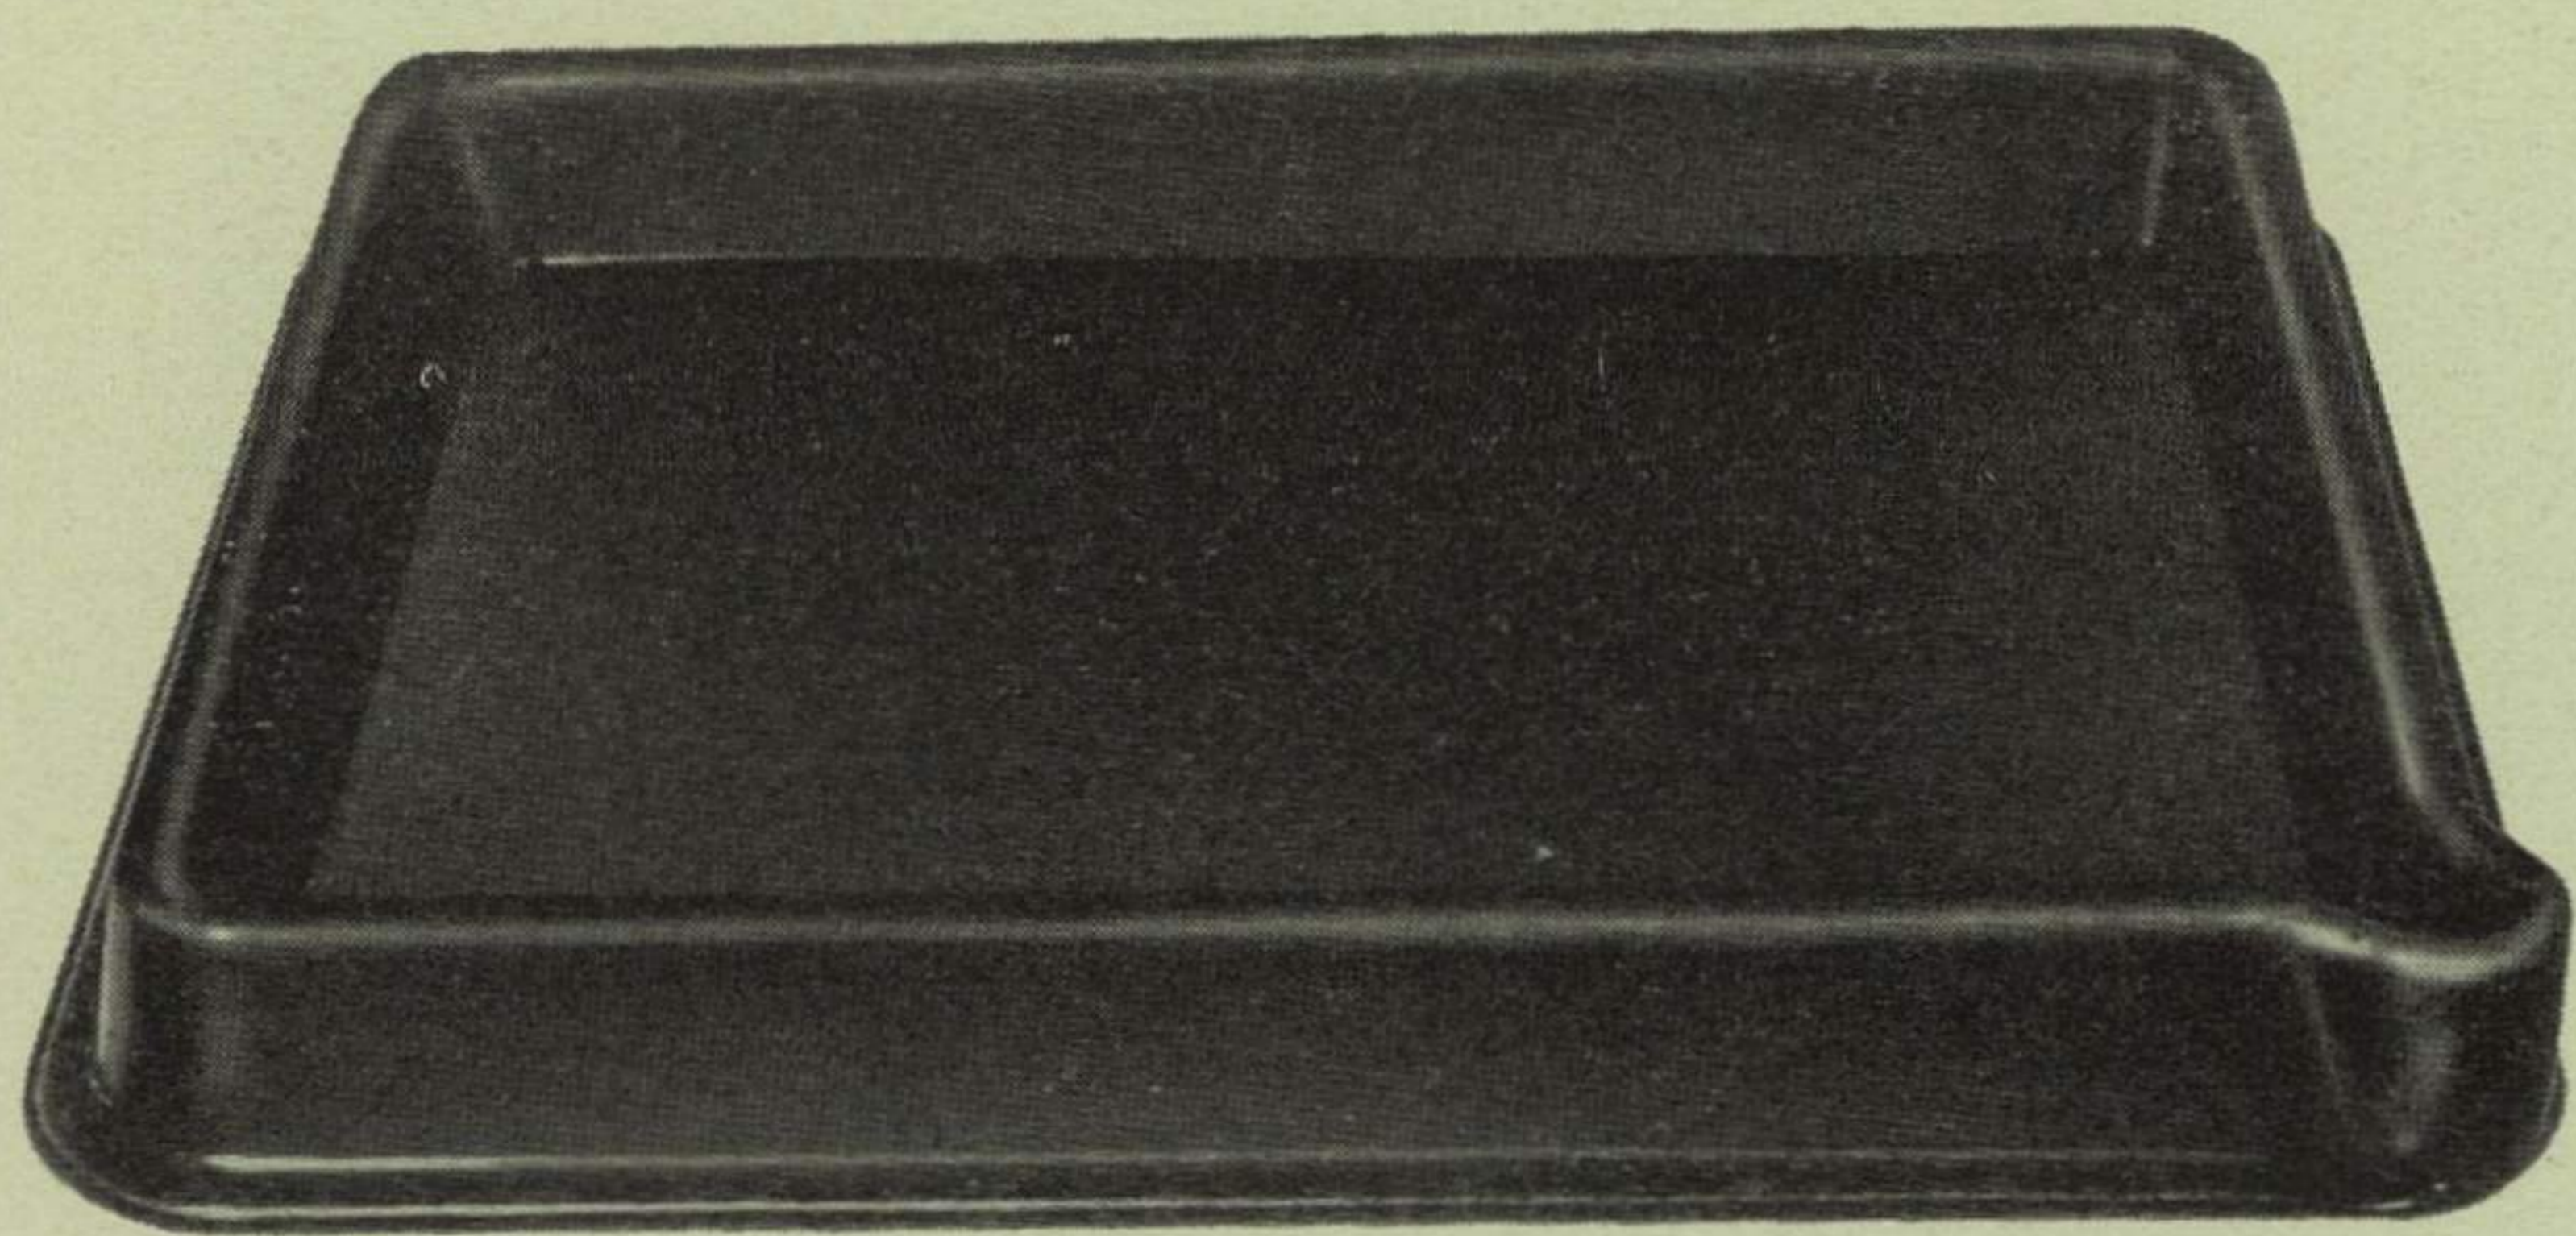

Spring board mats are 18" wide, strongly bound on the ends. Furnished with galvanized screw eyes, large headed galvanized tacks, brass end screws and lacing. Locker room cocoa runners bound on ends with rubber; supplied in 24" and 36" widths, plain or colored borders.

Our matting gives excellent service—far outwears the average grade. What are your needs?

## Sanitary

### Foot Trays

—provide the "ounce of prevention" against Athlete's Foot. A good-looking, hard rubber tray that cannot rust or chip. Easily drained. Resists chemical action. Always retains its sanitary appearance. Supplied with necessary chemical, upon request.

## Life Buoys

Equipping your pool with a few of our life buoys, gives children and inexperienced adult swimmers needed protection. Our life buoys conform in every way to United States Government standards. Supplied in 19" - 24" - 30" outside diameter. Bronze life buoy hooks also available.

## Red Cross Test Rubber Diving Weights

Boys and young men find it lots of fun to dive and recover these 10-lb. rubber weights from the bottom of a pool, particularly in the Red Cross Life-Saving Tests.

## Life Lines - Life Line Floats - Life Line Anchors

Necessary safety features for the pool. The Spalding principle of fitting line, float and anchor has endorsement of leading safety engineers.

## Water Toys

Children will amuse themselves for hours with these fascinating water toys. Made of heavy rubber, with reinforced seams. Innumerable shapes and colors.

## Surf Boards

A thrill for young people to use: paddling in swimming pools; surf riding. Made from Balsa wood, lightest wood known. Write for prices.
