

SPECIAL SOFT COAT MAT PAINT

E. P. Finigan Co., Distributors.

A rubberized waterproof preparation, made to preserve and sanitize gym mats and to remain pliable throughout the life of the mat. Gets smoother with usage, does not peel. Do not compare or confuse this product with ordinary paint, canvas deck paint, canvas preservative, etc. None of these will give you the same soft result. We have tried them all.

The proper painting of your mats will appeal to you if you picture the dust, the filth and the germs that a piece of 21 oz. canvas will absorb in normal use and abuse as a mat covering. Include in the picture, sweat, skin, blood, scabs, germs from athletes foot, etc. Now picture the modern sanitary method approved by the Division of Health and Physical Education of the State Board of Education and you see the soft, grey, glossy coated mat that will not absorb these things. No laundry bills, no expensive and unsatisfactory attempts at having your mats cleaned. Just sponge them off with water and an antiseptic solution occasionally.

A saving investment. Mats cost a lot of money and there is nothing that gets harder usage. They are jumped on, rolled around and dragged across the floor. When painted, they last two or three times as long because the paint preserves the canvas and stitches from rotting and takes most of the wear.

Our painted mats are standard equipment at the University of California at Berkeley, Los Angeles and Davis, at the San Francisco and San Jose State Teachers Colleges, at the Olympic Club, in the public schools of San Francisco, Sacramento, Santa Rosa, Ventura, Eureka, Visalia, Reedley and in many other educational institutions and clubs throughout the state and nation. We have no record of any institution, once having used E. P. Finigan Co. painted mats, returning to the use of unpainted mats. This, we believe, is the most convincing endorsement of the process we can offer.

One gallon is sufficient to cover a mat 50 square feet in size. For example, one gallon will cover both sides of a 5' x 10' mat with three coats. Complete instructions for treating the mats are furnished with the order. Price is \$6.00 per gallon.

E. P. FINIGAN CO.

Manufacturers and Distributors of Gymnasium, Playground, and Swimming Pool Apparatus.

Sales Agents and Distributors for

NARRAGANSETT MACHINE CO.	Gymnasium Apparatus
