Mr. Ralph Cannon,
Esquire,
919 No. Michigan Ave.,
Chicago, Illinois.

Dear Mr. Cannon:

Maybe the bird is too early! I haven't even started on the article but have thought about it a lot.

I am teaching here in the eight weeks Summer Session at the University and we will be through on July 24. Some of my data has not been available, but I know about what I want to say as soon as I can get some supporting evidence which will be available when one of the people at the University returns from a vacation in about two weeks.

I will get it ready and shoot it along to you for your inspection at the earliest possible moment. Thank you.

Sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.
