Dear Dr. Allen:

It was my thought that you might be interested in the articles from "A.P." as they appeared last weekend in the Omaha World Herald.

My father - H. F. Chenoweth of Omaha, who is a motion picture man and has photographed B. U. football games for many years prior to <sup>the</sup> war, immediately recalled that easterners also denied your accusations of betting on basketball games in New York, only to lose face when it was found later that you were right.
