

Copy of Confidential Communication
to the Appointment Secretary
Stanford University, Calif.

August 22, 1939

I have had the opportunity to become closely acquainted with Mr. Shirley R. Hukle. I regard him as an intelligent, capable, conscientious student. He has always cooperated to the fullest extent. He is a very quiet and reserved individual who reveals a pleasant, cheerful personality upon close acquaintance. I regard him as a person of excellent character and high ideals. He has a splendid background in both physical education and hygiene from the University of Kansas and Stanford University. He possesses a wealth of experience in practically all activities and phases of physical education. In my opinion, Mr. Hukle is well prepared by training and experience to teach or to administer a high school or college physical education program.

A. A. Esslinger
Assistant Professor of Hygiene and
Physical Education
Stanford University
