

Dr. Forrest C. Allen

-2-

December 16th, 1940.

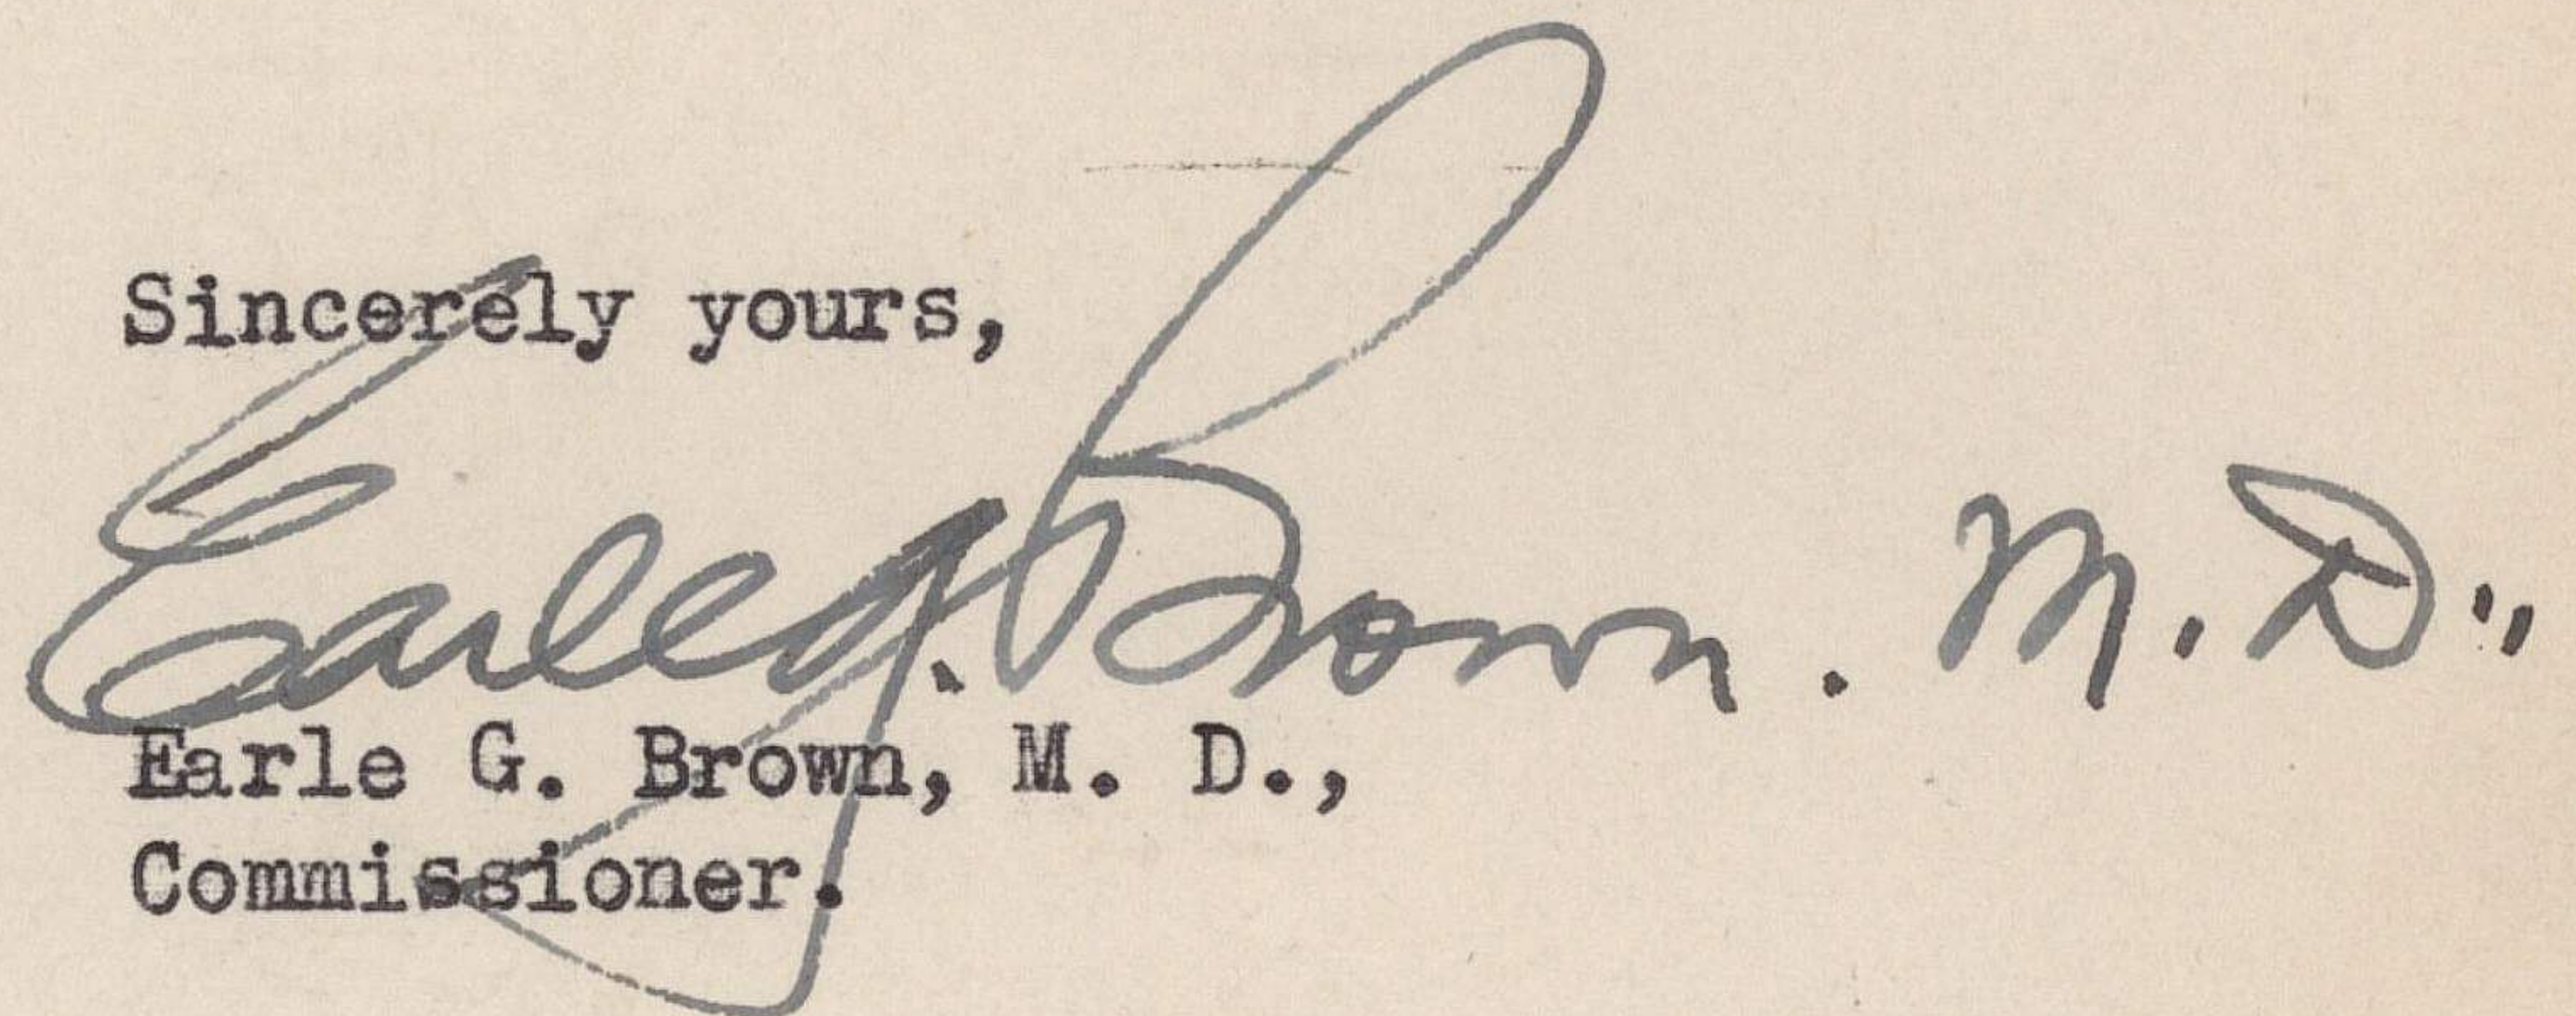

Richard attended law school at New York University for one year but things were so confused this year and he presumed he would be called in the draft that he has dropped out of school and is working for a real estate firm in Garden City. He likes his work very much.

Mrs. Brown's condition is just about the same as when I last wrote you. Dr. Hudson, who is attending her, plans to have her take additional x-ray treatments during the coming week.

We are ordering tickets for the game on the 27th, and will see you at that time provided you do not come out to Mineola to see us before then.

With kind regards.

Sincerely yours,

 Earle G. Brown, M.D.,
Commissioner.
