October 14, 1937

To All Instructors having Physical Education majors or minors:

This will introduce to you Mr. Mano W. Stukey, who has been charged with the task of securing information with reference to the progress and scholastic activities of members of the athletic groups of the University.

Any assistance which members of the staff are able to give him in order to discover shortcomings in scholarship, attendance, or general behavior will be gratefully received and constructively utilized in this office and by the athletic administration.

I am sure that you appreciate the importance of this close personal supervision in the light of the difficulties which the University has been having in recent years. I believe that by helping Mr. Stukey to perform properly his guidance function you will be helping yourself and the University to a more favored place in public esteem. We shall personally be grateful to you for such assistance as you can give.

Sincerely yours,

Raymond A. Schwegler
Dean
