

Dear Doc:

The enclosed card came in this afternoon. I couldn't get Mr. Robertson on the phone immediately, so I went to the hospital and saw Monte. Later I talked to Mr. R. Now I haven't time to go up and see him again, so I am leaving this note at the desk for him.

I am sending you the carbon because we have discussed this situation before. Probably I should have sent the carbon to Ad, since he may be interested in the boy's eligibility for the M. U. game. I didn't want him to light into Monte in such a way, though, that he wouldn't care whether he took the exam. Accordingly, you get the carbon, and if you feel Ad should have notice before next Tuesday, use the enclosed envelope to send it on to him.

M. Rich
