

THE UNIVERSITY OF KANSAS
SCHOOL OF EDUCATION
LAWRENCE

7/20/39.

Dr. Allen:

Following is a suggested core
for Education, as per our telephone
conversation:

	hrs.
M 340 - Modern <u>Dehy</u> . Procedures	- 3
P 278 - Adolescence	- 3
A 254 - School Hygiene	- 2
✓ M 294 - Methods in Phys. Ed.	- 3
✓ M 399 - Research in <u>Dehy</u> . ^(Thesis)	- 3-5
	14-16

Now, since both M 294 + M 399 above
will probably be handled by your staff, you
could well include other Education courses,
such as M 165 Theory & Pr. of Dehy. (introductory to M 340),
S 292, Introduction to Study of Curriculum, and
M 377 Problems in Dehy.

Ten hours or so in Phys. Educ. courses,
in addition to the Educ'n courses, should
be indicated. You already have indicated
202 + 312.

E. E. Bayles.
