Asst. as shock absorber

June 7, 1938

Dr. F.C. Allen,
University of Kansas.

Dear Dr. Allen,

The committee on prerequisites for a combined
Masters degree in education and physical education
recommends the following:A. That the undergraduate work include the following
courses or their equivalents:

- | | |
|---|---------|
| 1. Techniques or theory and practice - | 8 hours |
| 2. Hygiene, physiology, zoology or anatomy - | 7 hours |
| 3. Courses involving the history, principles
or philosophy of physical education | 3 hours |

B. That a committee of advisors be appointed to
evaluate the transcripts of all entering candidates. 18 hrs.C. That the addition of the Masters work in physical
education will necessitate a change in the number-
ing of some of the junior and senior courses to
open them for graduate work

Respectfully submitted,

E.R. Elbel
Ruth I Hoover
Elizabeth Dunkel
