

October 27, 1945

Major Edwin R. Elbel  
School of Aviation Med.  
Randolph Field, Texas

Dear Eddie:

I was just over to talk with Ray Nichols this morning, and he has a swell job lined up for you as soon as you like here on the campus. The veterans are coming in so rapidly that Mr. Leonard Axe needs help, so if we never had any teaching for you to do, he thinks he has a personnel job for you in the Administration Building, meeting the veterans. I know that you will like it because it is right down your alley meeting these boys and orienting them.

The Chancellor asked the Senate to give him authority to appoint a committee that would pass on the veteran's credit, etc. for graduation. That was done and the job has been bigger than they had ever anticipated, so you are to be one of their very good helpers, and I know you will like it.

I am hurrying this letter off Saturday morning so that you will have happy news for Monday. Of course, we will want you to look in on us as often as possible with the view of getting into the swing of things as soon as they will release you.

My kindest regards to Gordon Gray and congratulations to him. If you happen to see Bill Greene, give him my best.

Sincerely yours,

Director of Physical Education  
Varsity Basketball Coach
