Dear Howard:

Thank you for your very splendid letter of the 18th instant. I was awfully sorry that I could not spend more time with you that day. The Draft Board, and then later came my golf game. I am sure that you recognize and appreciate the necessity of a fellow getting out a part of each day for recreation. I have been able to do the many strenuous activities that I have undertaken, do to the fact that I almost invariably take a part of each day for some recreation and diversion. It has been golf now for quite some time, and I feel much more fit when I don't neglect it.

We shall be delighted to see you back here when we can carry on our usual friendly and enjoyable contacts. Anticipating the pleasure of having you and your lovely family here with us in Lawrence, I am,

Sincerely,
