

Dear Doctor:

Just a note to let you know I am still aboard the good ship England. Got a clipping the other day about the Iowa State game and sympathize with your problem of playing against pros like Brookfield. You keep on building character and making men & your reputation will be universal and foremost in your field long after the "flash in the pans" are forgotten.

My kindest regards to Mrs Allen, Bob and all the other dear ones in Lawrence. I sure get lonesome out here for the notes of Rock Chalk but I know someday we'll have a great reunion. Lots of luck for the remainder of the season. The Jayhawks all over the world are rooting for you.

Sincerely yours,
H. H. Kueseman
