

May 16, 1944 -

Dear Doc,

I have just received the rebound & again want to thank you for remembering me - I certainly enjoyed reading it & was glad to hear the news ~~at~~ about <sup>all</sup> the fellows.

My job here is very interesting & consists of patrol & convey work. We are working in the groups of islands when for the word made us last landing. The entire island is covered with evidence of the terrific battle which was fought - one begins to shudder after seeing four game yards & rows of crosses.
