Dear Phog,

Sorry that you could not reach us when you were in New York. We are always glad to see you and to get the news from Lawrence. Saw Bo last week and he told us about you.

In a couple of weeks we will be leaving for Estes to join my parents. Our vacation is limited this year, and so we are going on the train, going directly to Estes and returning home directly, not having in Lawrence any time.

Have been busy as the dickens trying to get the school to ticking. Hope that it comes up to what I expect next year. If so we are going to go some place - just where I am not certain.

Helen joins me in regards to you and to your family.

Yours fraternally,
