

February 19, 1938.

Dr. George Esterly,  
Lawrence, Kansas.

Dear Dr. George:

You are a swell scout! Your wire came to us on the train and I called the boys in a huddle and read your wire to them. They are personally going to stop in and thank you for it when they are down town. It is such friends as you that never fail.

I know Susie was pulling strong, too, so our thanks to you all, and especially to the gentleman who sent his message when his heart was full of pride and joy. We love you for those qualities.

Fraternally yours,

Director of Physical Education,  
Varsity Basketball Coach.
