

out with replacements, and then gamble on a score. And then again these Kansas boys who proved to be iron men up to the Kansas State game may rise up on their haunches and run the Tiger out of this part of the country. That is why the customers come in on Thanksgiving Day to see what might happen.

Yes, indeed, I will be very glad to take your check to Mr. Earl Falkenstien, our financial secretary of the Athletic Association, and get the best two seats possible for your son, Richard. I think you people were intelligent in leaving Richard at Baker for his senior year. The Baker team has had a good football season. They have had their ups and downs, but mostly ups.

I am glad to know that Josephine is a senior in the Washington Lee High School. Extend to her my congratulations for her leadership. I think she is doing splendidly. The Honor Roll is not an easy thing to attain, and I am glad that she is moving right out in the front rank.

Now, just a word about my family. Milton, the chap who played on our ever-victorious team, is at Russell, Kansas, with the Standard Oil. He is married and seems to be extremely happy. He married Isabel Perry, the beauty queen here at Kansas in several selections.

Jane, my second daughter, graduated from the University, and is now at Stanford taking another degree. Bobby is a freshman on the Hill. Last year at Lawrence High School he played end on the football team, guard and captain of the basketball team, was editor of the yearbook, valedictorian of his class, and finished the four years with straight E's. He is making a fine scholastic record here at the University this year, and is out for freshman basketball.

I am sending you a copy of our varsity basketball schedule for this year. I thought you might be interested in glancing over the dates. We lost all of our regular team - Noble, Rogers, Wellhausen and Holliday - with the exception of Pralle, so we will have four new faces on the regulars this year. It looks like Corlis and Florell, two Topeka boys, are going to be very much in the playing this year. Both are fine chaps, good grainers, and are going to make two fine players for Kansas.

I have just finished a new book, Better Basketball Incorporating Technique, Tactics and Tales. It will be off the press December 1, and is published by McGraw-Hill Company, of New York. It is the best thing by far that I have ever done, I think.
