

1003 So 2nd St.
Ark City, Mo.

Dear Doc & Son,

You wanted me to write you, so here's your letter. I don't have any idea where you are but I'll just address it to Lawrence, and let some one forward it.

Everything's been fine with me. I've played tennis and swam about everyday. All the kids are just lozping or playing all day. I'm sure glad I have a school to go to and not have to stay here much longer. The Shell is about through tearing down now, and then things will be bad. Everybody is either moving out or doing something. I've an Uncle who's leaving next week for a farm in Arkansas.
