

Kamehameha School for Boys
Honolulu, Hawaii
May 10, 1939

Dr. Forrest C. Allen
University of Kansas
Lawrence, Kansas

My dear Dr. Allen:

In a recent letter, John Bunn informed me that there would be a position open in your department at the University of Kansas. John said he did not know the exact nature of the position or what the duties would be, but he intimated that work in general health, physical education and athletics would probably be included. I am very much interested in a position of that nature and I would like to be considered as a candidate for such a position on your staff. I believe that my training, experience and background qualify me for university teaching.

At present I am completing my second year as Director of Athletics at the Kamehameha School for Boys in Honolulu, where my duties include the direction of physical education classes, the intramural program, coaching, and teaching units of hygiene and preparation for marriage and home life in the senior orientation courses. Previous to coming here, I had four years of experience in coaching and teaching physical education and academic subjects in three California high schools. During my three years at Vacaville High School, I was head of the physical education department and coached all sports with more than an average degree of success. Besides my coaching, physical education classes and intramural work in high schools, I have had several summers experience as life guard, pool director and swimming instructor with the Los Angeles City Recreation Department. I also held the position of assistant camp director for several summers in the Los Angeles Council Boy Scout Camp where my duties included the teaching of swimming, equitation and sports.

My training in physical education was obtained at Stanford University where I worked under Dr. Thomas E. Storey, John Bunn, Dr. N. P. Neilson, Dr. Walter Brown, Dink Templeton, and Tiny Thornhill. My credentials indicate that I did not complete quite all the requirements for a major in physical education before I obtained my degree of Master of Arts. This is explained by the fact that I decided to enter the teaching field quite late in my college career; and the large number of
