

it had been a boy.

I am working at Dawson's Drug Store and have been for the past two years. I work after supper and on Saturdays and Sundays.

Russell's new high school building was completed about a month ago and is now in use. I am a freshman 14 years old and take the following subjects: English, General Science, Latin and Algebra. I like school and I study hard, we had Semester examinations last Thursday and Friday I think I passed all of them but I am not sure because the things I reviewed they did not ask and the things I did not review they did ask. I am saving my money so that some day I may go to college.

I thank a lot for the advice and the K U schedules. I am keeping up with the games. And I hope that you will have a winning season.

Yours for another championship

Bab Dale
