

October 4, 1939.

Dean E. B. Stouffer,
The Graduate School,
University of Kansas.

Dear Dean Stouffer:

I desire to send you a little information on the qualifications of Mr. James Raport, an instructor in the Department of Physical Education, who is teaching this semester our course in Tests and Measurements.

Mr. Raport has taken both the psychological and educational courses in tests and measurements, and also a graduate course in statistics in the Department of Psychology. He has also had courses in physiology and anatomy.

He is getting along splendidly with the teaching of Tests and Measurements in Physical Education. I thought it would be well to let you know something of his background.

Very sincerely yours,

FCA:AH

Director of Physical Education and Recreation,
Varsity Basketball Coach.
