Dean E. B. Stouffer,
Graduate School,
University of Kansas.

Dear Dean Stouffer:

I am heartily pleased with your letter of the 19th offering a possible graduate program for students who wish to become teachers of physical education in the high schools and public schools of the state.

This strikes a very responsive chord in my makeup, and I am submitting this to our faculty in the School of Education as soon as school convenes next week. I am very happy about this and I thank you for your very splendid cooperation and suggestion.

Very sincerely yours,

FCA:AH

Director of Physical Education.
