My dear Mrs. Hulthen:-

I am sending a translation of the letter. The booklet "Sports of Uruguay", dedicated to all American sportsmen, has an inscription above the prologue "To the illustrious Mr. Forrest C. Allen, director of Physical Education of the University of Kansas, with greatest respect and homage." Signed by the author with place and date. If Mr. Allen cares to know more of the contents of the pamphlet I'll be glad to translate whatever he wishes. It seems to contain much of the author's philosophy as well as his descriptions of the various sports.

The magazine article gives an account of the origin of Goal-Hi, a description of it, and the advantages it offers. I'll be glad to translate it more fully, also, if desired.

Sincerely,

Maudie Elliott
