My dear Friend Robeledo:

Your very generous letter together with clippings of our game, Goal-Hi, and rotogravure of two of my players, Engleman and my son Bob, came to my desk this morning. I greatly appreciate the photograph that you enclosed of the boys playing in what we call our country club or boys' club. It appears that they are having great sport, and I am happy to see the youth of your country enjoying themselves so fully.

I sincerely trust that the friendships that are now being cultivated between our America and your America will ripen into lasting friendships. Doubtless the games that we play will have much to do with cultivating said friendships. I hope in the next few years that it will be possible for me to take a trip with my University of Kansas basketball team down through the South American Republic.

I am sending you a copy of the official rule book of Goal-Hi, together with some new printed material. I can understand that the game of Goal-Hi can be fabricated in your country at a much less expense than if you were forced to buy it in the States and pay duty upon the same. If there is any way that I can at any time be of any service to you, I wish that you would call upon me.

I greatly appreciate your kind letter and I sincerely trust that we at some near future date may have the pleasure of greeting each other personally. With kindest regards and best wishes, I am

Sincerely yours,

Director of Physical Education and Recreation,  
Varsity Basketball Coach.
