Dear Doctor Allen:

Enclosed are various clippings from Uruguayan dailies which refer to the first trial made in this city, of "Goal Ki". With them I hope to correspond with your wishes to know what the impression was, left by this first trial.

Subsequently, I hope to remit news impressions concerning more serious trials + exhibitions which we can arrange opportunely.

Meanwhile, I make use of the occasion to congratulate you and permit myself to remind you that some time ago I took pleasure to make you a remittance of details concerning the development of basket ball in this country.

Without further notice, I am pleased to send you my highest consideration and esteem
