

From H. López Reboledo to Dr. F. C. Allen July 25, 1940

Doctor Allen -

Rec'd reply from Fred Medard Mfg. Co. - asked him in <sup>this</sup> same mail for shipment of one "Goal Hi" equipment in spite of fact that there is a diff of \$6 in price from your catalogue rec'd earlier. Am optimistic of quick spread of the game in this country.

Fred Medard Mfg. Co has patented the game, I understand, only in the U.S. & Canada. If this is so, you have not given corresponding rights to Uruguay & the S.A. countries. I ask for authority to represent you in this country in order to take steps to attain the rights or, if it does not interest you personally, I would ask authority to attain for myself, those privileges. In either case it will be necessary that you send me the documents to register a patent, or your authorization to make it possible that I obtain privileges as soon as possible. ~~When~~ The negotiation must be initiated here before a yr. has passed ~~from~~ the date in which the patent was obtained in the U.S. After one yr., any person here can manufacture similar equipment. However if a patent within a yr. is obtained here, or the U.S. patent is renewed within same time, the privileges will be extended for 9 yrs.

Hope for a quick answer - airmail if possible - Anticipate with same enthusiasm to acquire patent rights for you as well as for me personally.

Finally, I bring to your attention that before ~~the~~ ~~you~~ ~~might~~ ~~have~~ ~~needed~~ ~~already~~ ~~would~~ ~~rights~~ ~~to~~ ~~Fred~~ ~~Medard~~ ~~Co.~~ ~~+~~ ~~before~~ ~~the~~ ~~pressure~~ ~~of~~ ~~time~~, I have asked ~~for~~ ~~simultaneously~~ the
