Two events that have occured at MU while I have been gone have pleased me very much. The Wm. Allen white founda#tion and fund should make for KU's attaining a high role as a school of journalism, and since journalism is my interest, good news it certainly was. Then Ernie Quigley's appointment as athletic director should be a boost to the school. I read the Topeka Capital article reporting his appointment, and I feel quite sure that Mr. Quigley means what he says and will give his all to boost KU athletics.

I've never read whether Elmer Schaake's bid for grid mentorship at Denver U. materialized. Probably not for poor as the Dallas and Ft. Worth paper's sports pages are they probably would have had that news. I hope KU doesn't lose Schaake for he and Henry Shenk make a good coaching duo;

Give my best regards if you will to Mrs. Hulteen, Mr. Shenk, Strait, and Schaake.

won't mind for we then would get 10 day furloughs and would enjoy? ere-flight under more favorable weather conditions. It's clenty hot there now.

At Cincinnati T saw several Reds' games, seeing an entire Cardinal series. I also saw the Cubny and Firstes. The not realizing it at the time, I saw the best two teams in the Am. League in action##### when I saw the Browns and Hed Sox in St. Louis in June. Other sports features enjoyed at Cincy was the finals of the Eri-State teamis matches in which Seguera best Tolbert and Bundy best the wemen's champ. F. Bett. All these attractions were for free.

We lived in dormatories, ste better than any king, and naturally our morale was indeed high. Thus spoiled, we griped a little about adjusting back to GT life here but find we are again enjoying most favorable circumstances.

Here July 4th Sam Rayburn spoke and two new winning pools were opened. Yesterday I saw Waco AAF trounce the Ferrin team. Waco, winners of Texas tourney, boasts Sid Hudson, Birdie Tebbets, and Mick Popovich, former major leaguers.
