Dr. Forrest Allen,
University Of Kansas,
Lawrence, Kansas.

My dear Phog: -

Paramount complained that I did not cover your story properly. They compliment the shots which we took but think we should have more variety of players.

I wish to come back to Lawrence within the next few days and shoot scenes of kiddies playing your game. I wish to set-up a basket on some public playing ground and have a game between kids around ten or twelve years old.

I would like to have a different location for a game between girls -- girl scouts -- camp fire girls -- or girls from any church or civic organization. (*Haskell Girls*)

In other words the University angle has been covered without criticism, but the human interest side was overlooked. I am sorry that I did not have brains enough to realize this fact and I wish to come back at your convenience. Can you arrange for two different locations along the lines mentioned above?

Trusting that you understand this situation and that I may have your continued cooperation, I am

Sincerely yours,

Billy
Billy Andlauer.
