

Lawrence, Kansas
July 21, 1939

Mr. Dwight Keith, Secretary,
Georgia Coaches Association,
751 Park Drive, N. E.,
Atlanta, Georgia.

Dear Mr. Keith:

As chairman of the Research Committee of the rules body, we have been working on a modified backboard for basketball. A number of these backboards are being sent out to coaching schools over the country this summer for experimental work.

I am asking the manufacturers of these backboards, the Medart people of St. Louis, to send a board to you so that we may work with it a little during the week we are in Atlanta. They have a representative in Atlanta and will handle the erection and installation of the board.

With best wishes for the success of your coaching school, and looking forward to seeing you in August, I am

Very sincerely yours,

Director of Physical Education and Recreation,
Varsity Basketball Coach,
University of Kansas.
