Dear Doc:

I was delighted to hear from you and to know that apparently things are moving in your favor. You can count on the support of this board one hundred per cent. About the only thing we can do is when the discharge papers come in for us to approve them from our angle. They tell us to take no activity with the exception of approving or rejecting the application, and you know what we will do in your case.

I was sorry to learn of the death of your father, but I am gratified to congratulate you on taking unto yourself a blushing bride at your tender age of 38. You have done your hitch O.K. and we know you are entitled to the discharge. I am happy you are going to be lined up with the Santa Fe. That is one of the greatest companies that I know of. It will certainly be good to see you around again.

I am sending you a Jayhawk Rebounds which will give you some dope on the boys. This is a monthly letter that I send to the boys in the service.

Awaiting your coming with pleasure, I am

Sincerely yours,
