

Dear Dr Allen:

I have been told you are on the draft board and if you are it wont be long until you receive a letter from Omaha about me.

I asked for a discharge last week and my Col. approved it and sent it to Omaha and they wrote back to day for the name & No of my draft Board. So they must be going to write to you.

The Santa Fe has told me that they would give me a job in their special Service Dept. I am over thirty eight and I would like to get out and get a start before the kids get back. you know what they are going to tell me when I ask for a job, "Sorry old man not taking on any one your age." My Dad has died since I have been in the Army and Moms health is awfully poor and she needs some one to look after things for her. If you can do anything for me I would sure appreciate it very much. I also was married
