

Keep on coming. Happy to report that the APA 163 is still undamaged and afloat. We have experienced many close calls - but are still fighting!

Doc, I had a visitor about three hours ago - just after starting this letter. Alvin McCoy who is covering the Pacific war for the K.C. Star dropped in for a visit. He is returning to the beach - came aboard after receiving a note from me, that I was on the Eastland. So, here's a note for your Rebounds.

You also might be interested in knowing that I ran into Lyle Arnel, who is skipper of APA 210, which is operating in our transport division. Visited with him recently. Boy, it sure was good to see a familiar face from K.U.

Must close for now. Will keep you posted,
Mike
