

OFFICE OF THE DIRECTOR OF PHYSICAL TRAINING
GARDEN CITY ARMY AIR FIELD
Garden City, Kansas

October 9, 1943

Dr. Forrest C. Allen,
Director of Physical Training,
University of Kansas,
Lawrence, Kansas.

Dear Doc;

I was mighty happy to receive the August issue of "Jay-hawk Rebounds". This is a great idea to let old cronies know of each others whereabouts. It was with much interest that I read the letters from the other boys.

The last I heard from you was when I was stationed at Curtis Field. I have been here at the Garden City Army Air Field since the first of the year as head of the Physical Training department.

I have wanted to take a hop up to Lawrence to say hello many times, but this job of setting up a program on a new field is a pretty big one and I have been far too busy to travel around. This is the second one I have set up. I did go out to Hays and over to Hastings, Nebraska for about two weeks setting up Physical Training programs at those colleges too.

I am going to get busy one of these days and write to a lot of the fellows.

Ruth and I are very happy here at Garden City. You know, of course, that we have a baby girl now. She was a year old the sixth of October. She is really a husky and is just starting to walk. We get a big kick out of playing with her.

Aviation Cadet Bob Stoland was here for basic training and I got to talk with him quite a lot. By the way, Bob was one of the outstanding cadets we have ever had here. He won the athletic award for his class. A very fine specimen.

Must close now and go home to dinner. Remember us to everyone and write when you can.

Sincerely,

HARRY G. GRAY
1st Lt., Air Corps,
post physical training officer.
