Dr. F. C. Allen, Varisty Basket Ball Coach
University of Kansas
Lawrence, Kansas

Dear Dr. Allen:

All of us including myself have been making a great deal of fun of our good booster friend, Wilbur Buescher.

Last night in the first game of the Sectional Tournament he played his first game of high school basketball. Frankly, he is a natural. Wilbur has a fine eye for the hoop, is developing physically, and best of all is on the Honor Roll.

During the past few years young Buescher has been the star scorer on the Lutheran Church team, but everybody thought the competition was weak, but instead it has provided him with an opportunity to work on his shots, and floor play.

May I suggest that John Buescher start reading Wilbur's clippings in place of sending so many home.

Regards.

Sincerely

John,

P. S. Many thanks for the letter to Gene Tunney.
