

*John Harris Glenn*

710 EAST FOURTH ST. BEARDSTOWN, ILLINOIS

September 3, 1941

Dear Dr. Allen:

This letter is to inform you that John Buescher is in first class physical condition after completing his third season as an employee of our organization.

John, during the past three weeks, has been a helper on one of the ice trucks, and, consequently, should be as hard as nails for your fall practice session.

Upon Buesch's arrival home, I discovered his carrying a pipe in his coat pocket. The pipe dropped in front of me on the plant platform early one morning. Upon questioning him, he informed me that he had used it several times since spring practice, but he told me that he intended to give it up before fall practice starts. I immediately lectured to him on the use of tobacco, and since that time he has not used tobacco in any form.

Looking back over the last three years of John's employment with us, we see a great difference in his actions. The plant engineer as well as myself appreciate the efforts that you have made in providing John with the advantage of a college education and athletic training.

Undoubtedly you are in the midst of rehearsals and dinner parties for the coming event on September 6. Be sure to take a strong Dexin before entering the Church.

Will be thinking of you, Mrs. Allen, and Jane next Saturday night.

Sincerely,

*John H. Glenn.*
