Dr. Forrest C. Allen, Varsity Basketball Coach
University of Kansas
Lawrence, Kansas

Dear Dr. Allen:

Was certainly glad to receive your letter upon my return from Toronto, Canada, where I attended a four day session of the National Ice Association Convention.

I have just placed several "feeler" letters in the mail relative to your current officiating problem. Incidentally, be sure the playing floor in Chicago is satisfactory as most De Paul teams are always hard to beat in an intersectional game because of officials and general playing conditions. Will write you immediately upon hearing from several of my Chicago friends.

While passing through the Windy City I took time out to call Jane. She had just gotten home from the office, but was kind enough to ask me out for one of her own meals. This naturally pleased me greatly, but since my train was to leave in about thirty minutes I had to take a rain check. Perhaps sometime we two and Mrs. Allen can sit down at her table for a chat session and food. She is a great gal, and will always carry her end of the load.

Glad to hear of John Buescher's general improvement. With Mrs. Allen's help he should pass any course confronting him providing of course he gives her his co-operation.

Am planning on seeing your current team in action several times this year. Give my best regards to Mrs. Allen and your squad.

Sincerely

John,
