

October 4, 1939.

Mr. Doral Grose,
Dodge City High School,
Dodge City, Kansas.

Dear Doral:

Thank you very much for your interesting letter. I don't blame Schwertfeger if he wanted to go to Oklahoma A. & M., but Iba should keep to his own territory, in my opinion. I can understand Burnett's case, also. I want to thank you for helping all you could. I am sure you did everything possible.

It looks like we are not going to the coast this year, but if and when we do we will try to stop over and work out in your gym.

I appreciate your efforts on behalf of Margaret Curd who was applying for a position in your schools. I believe Mr. Chandler had already recommended Miss Donie McDermond for the same job, and of course he would not feel justified in recommending a second person for the place. Miss Curd now has a fine position at Central College, Fayette, Missouri, as head of the women's physical education department there. She is doing a good job, and we were happy to recommend her for that position.

Things are going along fine here. Our youngest daughter, Eleanor, is a freshman at the University this year, and Bob is a junior pre-medic. Jane is working in Kansas City for Ritchie-Cooper, illustrators for Voge, Saturday Evening Post, and other magazines. Jane enjoys her work very much.

With best wishes to your good wife and family, I am

Very sincerely yours,

Director of Physical Education and Recreation,
Varsity Basketball Coach.
