

July 20, 1938  
Kansas City, Mo.

Mr. F. C. Allen,  
Kansas University,  
Lawrence, Kansas.

Dear Sir:

You will no doubt recall that I wrote you sometime ago in regard to the effect that junior colleges had on inter-collegiate competition. Your letter answered my questions quite fully.

My friend, John Halberg, and I plan to attend Junior College in Kansas City, Missouri next fall and to come to K. U. our sophomore year. Halberg is 6' 7" tall and I think with a good coach, such as you, he will develop into quite a player. John and I would like to discuss our courses and college in general with you before we enroll this fall.

Our only opportunity to talk with you is on Sundays. Would it be possible for you to see us on July 31? If so, please write me so that we may make arrangements. If that date is unsatisfactory, please set a date sometime in the near future that would be convenient for you.

Respectfully,

*Curvin H. Greene*
