September 20, 1937

Mr. Forrest C. Allen,  
Lawrence, Kansas.

My dear Phog:

Now that we have our athletes finally settled in school I hope ?? and ~~asking~~ matters are over, it occurs to me that I did not receive from the University this year the customary postal outlining the 1937 football games and price of season tickets. Will you please take this matter up with proper authority in my behalf and have them lay aside two season tickets for me, one as is customary on my K, the other to be paid for and I will call for these the next time I am in Lawrence probably this week end. If possible have my reservations made in section K or L about midway up. In other words so I do not have to walk too far after entering the stadium from the ramp.

If the athletic association should prefer immediate settlement, then tell them to advise me reservations made and the amount of check desired.

I hope prospects are favorable for a fair team this year and a much better one a year later.

If you will take care of this for me, Phog, I certainly will appreciate it and am writing you instead of Henry as I have reason to believe I know you better than I do Gwinn.

Sincerely yours,

WMG:ANG
