Dr. Forrest C. Allen
Head of the Health Dept.
University of Kansas
Lawerence, Kansas

My dear Dr. Allen:

request It may seem unseemingly for me to make a
~~request~~ requirement from an individual whom I have never
met, however, I have heard your name mentioned
so much in Kirksville and from those individuals
who came here from Warrensburg to say nothing of
the times that I have seen it in print, that it
seems that I should know you on sight.

May I have a list of the health courses
from your department which you give by correspond-
ence.

Congratulations on your successful basket-
ball season and ever wishing you the very best
there is, I am

Very truly yours
