Dr. F. C. Allen  
801 Louisiana  
Lawrence, Kansas

Hello Doc:

I hope you don't mind my asking another favor of you. From my correspondence with the Phillips Oil Company it seems that about the earliest that they will be taking any new men on at all will be next year. They say that it is very doubtful if they take anybody from this graduating class at all.

I see by the papers that Elwyn has accepted a new position with Oklahoma A. & M., and this leaves the training job open at K.U. In your choosing of a new trainer, I wish you would consider me for the job.

This Nevada country surely is fine. It snowed last Sunday. You can't tell what it will do out here!

Sincerely,

*Wade Green*
